Nonprofit/ Social Enterprise Research Project

A research project (completed or ongoing) that has had a demonstrated impact on a nonprofit organization, government project or social/human interest issue.

Judging criteria:

- Did the team demonstrate more than standard best practice and use a new/innovative approach to achieving the objective(s)?
- How effectively was the research project executed and implemented?
- Were the research methods and tools employed tailored to this project?
- Did the team ensure that the research project not only solved the current business problem but also had the potential to influence longer-term or wider business objectives?

Submission materials:

Required:

- One 250-word (max) high-level overview of the project, detailing why the nomination should be chosen.
- One 500-word (max) detailed project synopsis.
- Text response to the following questions:
 - Did the team demonstrate more than standard best practice and use a new/innovative approach to achieving the objective(s)? (150 words or less)
 - How effectively was the research project executed and implemented? (150 words or less)
 - Were the research methods and tools employed tailored to this project? (150 words or less)
 - Did the team ensure that the research project not only solved the current business problem but also had the potential to influence longer-term or wider business objectives? (150 words or less)
- One 250-word (max) recommendation/testimonial.
- One 150-word (max) summary describing the nomination (this summary may be published).

Optional (but encouraged):

- Supporting materials (maximum three file uploads).
- Up to two additional 250-word (max - each) recommendations/testimonials.

Groundbreaking Research Project

This award acknowledges the effectiveness, creativity and innovation in a marketing research project that took a new or innovative approach.

Judging criteria:

- Did the team demonstrate more than standard best practice and use a new/innovative approach to achieving the objective(s)?
- How effectively was the research project executed and implemented?
- Were the research methods and tools employed tailored to this project?
- Did the team ensure that the research project not only solved the current business problem but also had the potential to influence longer-term or wider business objectives?

Submission materials:

Required:

- One 250-word (max) high-level overview of the project, detailing why the nomination should be chosen.
- One 500-word (max) detailed project synopsis.
- Text response to the following questions:
 - Did the team demonstrate more than standard best practice and use a new/innovative approach to achieving the objective(s)? (150 words or less)
 - How effectively was the research project executed and implemented? (150 words or less)
 - Were the research methods and tools employed tailored to this project? (150 words or less)
 - Did the team ensure that the research project not only solved the current business problem but also had the potential to influence longer-term or wider business objectives? (150 words or less)
- One 250-word (max) recommendation/testimonial.
- One 150-word (max) summary describing the nomination (this summary may be published).

Optional (but encouraged):

- Supporting materials (maximum three file uploads).
- Up to two additional 250-word (max - each) recommendations/testimonials.

Health Care/ Pharmaceutical Research Project

This award acknowledges a marketing research-related health care or pharma research project that took an innovative approach, demonstrated more than standard best practices and ensured the research had the potential to influence long-term or wider business objectives.

Judging criteria:

- Demonstrating outstanding teamwork.
- Producing high-quality, useful data that solves a business need or problem.
- Taking advantage of individual skill sets to serve group goals.
- Creatively employing a range of tools and methods.
- Effectively communicating research findings to critical stakeholders.

Submission materials:

Required:

- One 250-word (max) high-level overview of the collaboration, detailing why the nomination should be chosen.
- One 500-word (max) detailed project synopsis of the teams' work (completed or ongoing marketing research).
- One 250-word (max) recommendation/testimonial.
- One 150-word (max) summary describing the nomination (this summary may be published).

Optional (but encouraged):

- Supporting materials (maximum three file uploads).
- Up to two additional 250-word (max - each) recommendations/testimonials.

Client/Supplier Collaboration

This award acknowledges a team of clients and vendors that worked together on at least one project and maintain an ongoing relationship centered around using research to solve strategic problems.

Judging criteria:

- Actively pursues further education and best practices in qualitative research and/or mixed methodology.
- Proven impact on business objectives.
- Excellent collaboration with internal or external partners.
- Commitment to promoting the impact of qualitative research.

Submission materials:

Required:

- One 250-word (max) high-level overview of the individual or team, detailing why the nomination should be chosen.
- One 500-word (max) detailed project synopsis of a completed or ongoing marketing research that is qual-focused.
- One 250-word (max) recommendation/testimonial.
- One 150-word (max) summary describing the nomination (this summary may be published).

Optional (but encouraged):

- Supporting materials (maximum three file uploads).
- Up to two additional 250-word (max - each) recommendations/testimonials.

*All entries will also be judged on the execution of at least one research project. The project must prove a focus on qualitative methods. If the project includes methods that fall into the category of “qualitative research at scale” or “big qual,” or harnesses the use of generative AI, please describe why these methods were chosen as well as provide a detailed description on why the submitter believes this to qualify as a qualitative research project.

Open to suppliers, end-clients and supplier/end-client teams. Independent moderators are also eligible.

Qualitative Research Impact

This award acknowledges an individual or research team that has made an outstanding contribution to business objectives using qualitative research.

*Nominations must prove a focus on qualitative methods.

Judging criteria:

Nominations will be judged on the technology's:

- Innovative qualities.
- Demonstrated performance in a real-world situation.
- Projected long-term benefit.

Submission materials:

Required:

- One 500-word (max) statement outlining why the technology should be chosen (please include metrics to support claims).
- One 300-word (max) statement outlining the technology's ability to have a lasting benefit, focusing on how it can be applied to other situations.
- One 150-word (max) summary describing the nomination (this summary may be published).

Optional (but encouraged):

- Supporting materials (maximum three file uploads).

The technology must be available for use on or before April 22, 2024.

Technology Impact

An innovative technology, or use of a technology, that has made an outstanding contribution to a project or organization.

Judging criteria:

Nominations will be judged on the product or service's ability to solve a specific problem.

All submissions must be real-world solutions launched on or after January 1, 2023, and available for use today (projects, tools or services in beta testing will not be considered).

Submission materials:

Required:

- One 500-word (max) statement outlining the product/service and detailing why the nomination should be chosen.
- Two 250-word (max - each) recommendations/testimonials.
- One case study example (PDF file upload).
- One 150-word (max) summary describing the nomination (this summary may be published).

Optional (but encouraged):

- Supporting materials (maximum three file uploads).
- Demo video link (URL).

Best New Product/ Service Innovation

A research product, tool or service making an impact on the marketing research industry.
