Sarah Kling

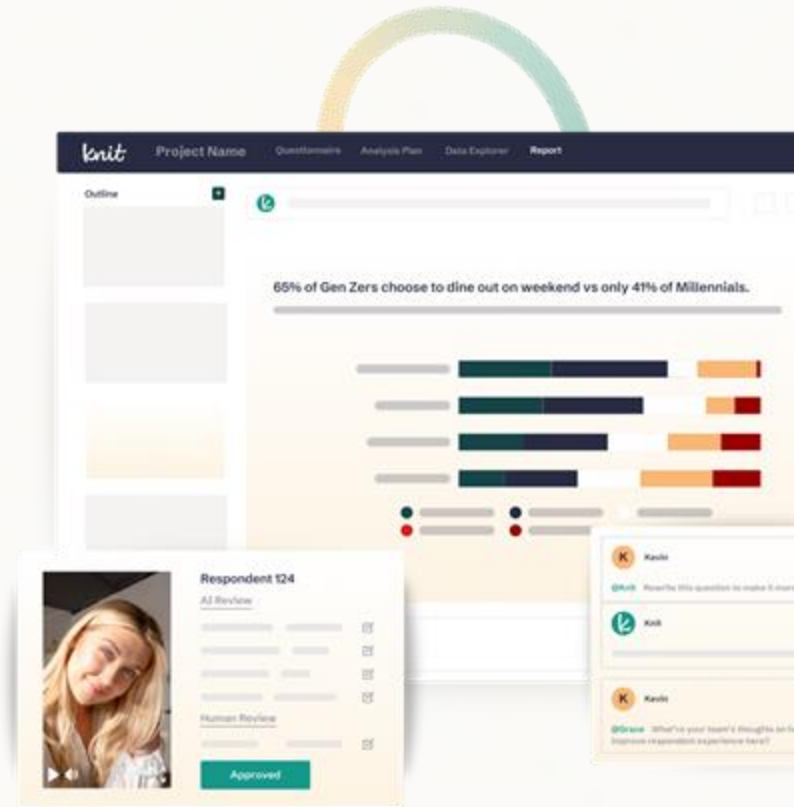

Sr. UX Researcher at
Amazon (Apps and Games)

A bit about Knit

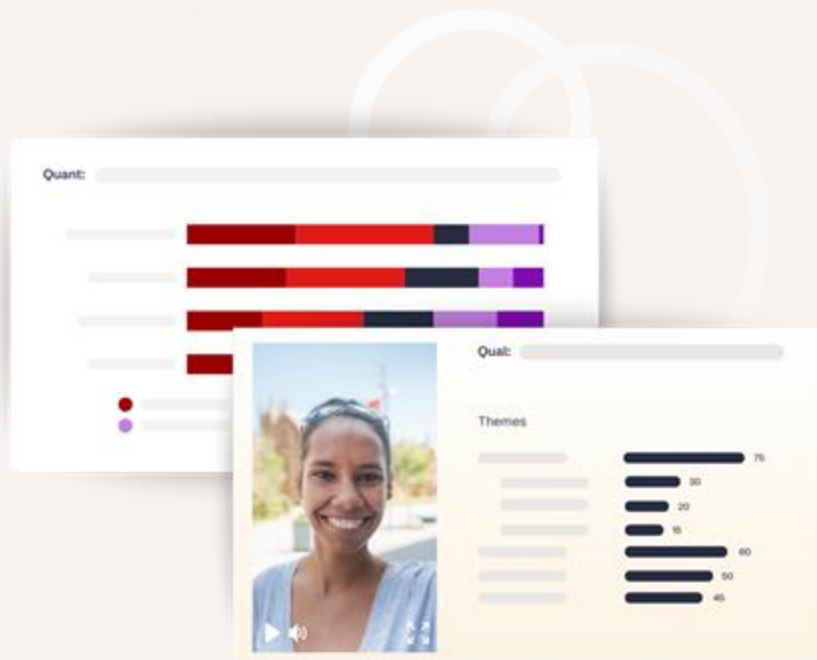

Knit helps researchers run agency-quality **quant + qual research** at DIY costs & speed, by taking the most time-intensive research tasks off their plate through **Researcher-Driven AI**.

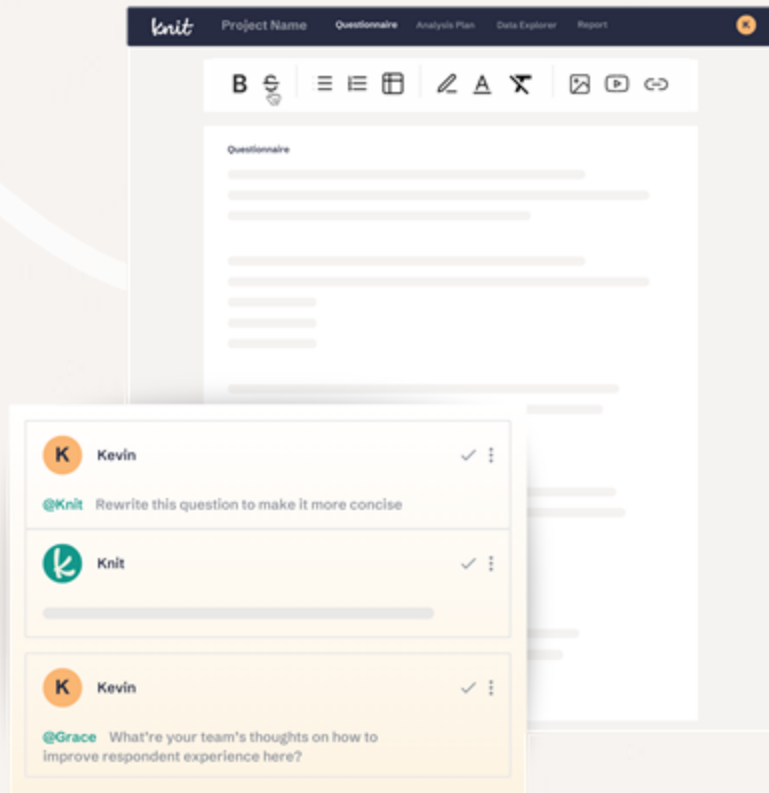

Trusted by 100+ Brands

Quant & Qual in a single study

Access the hard numbers through quant
for the “**what**,” with the “**why**,” reasoning,
and emotions of qual in a single study.

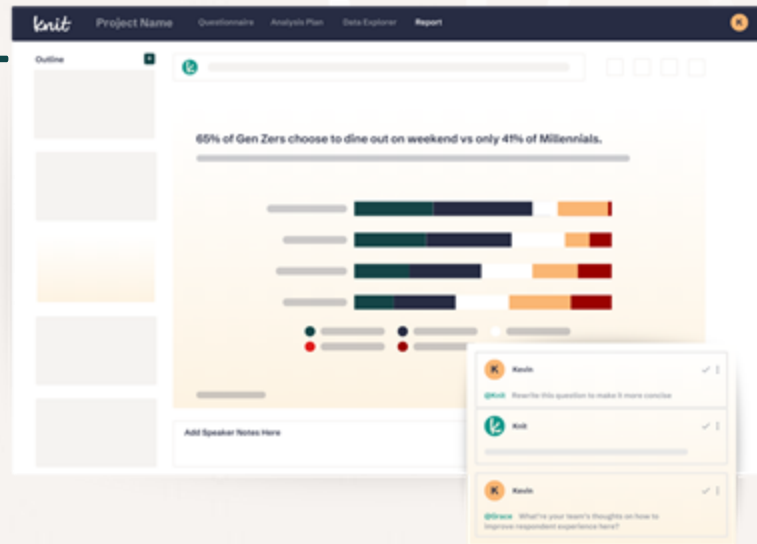

Time-Intensive work, Automated with AI

Let Knit draft your questionnaire,
identify key themes, or format your
report, so you can **spend your time on
what matters most.**

Topline Report within 24 hours

Run **2-3x more research**, as Knit gets you from research objectives to a topline report complete with key takeaways, recommendations, visualizations, showreels and more.

Dedicated Researcher at every step

To ensure you're 100% pleased with your final output, your own **Dedicated Knit Researcher** – who understands your organization and research objectives – polishes every output, at every stage, before it ever meets your eyes.

Amazon's Research Function

Amazon's Opportunities For Its Research Function

Prioritize

**Expanding the Team's Qual
(& Quant) Capacity**

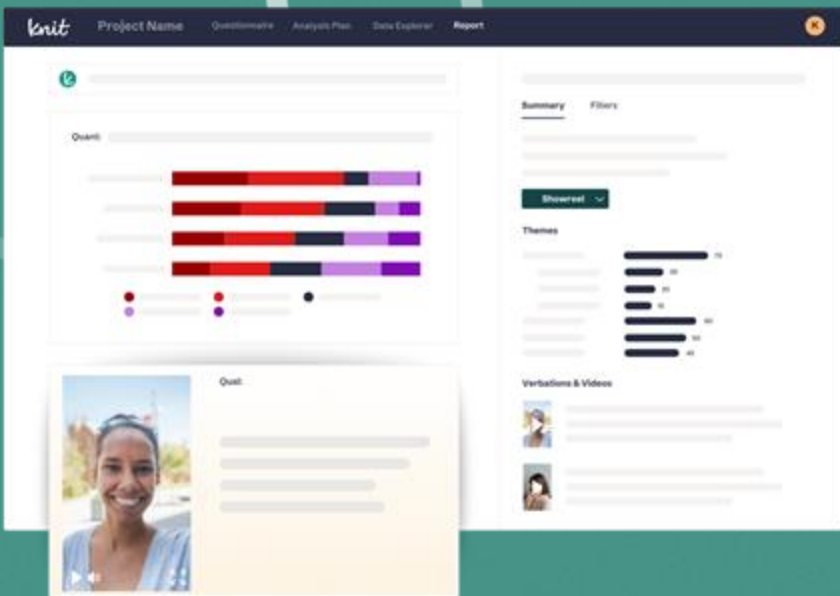

Begin

**Accelerating
Speed to Insights**

Continuously

**Evolving Amazon's
Research Toolkit**

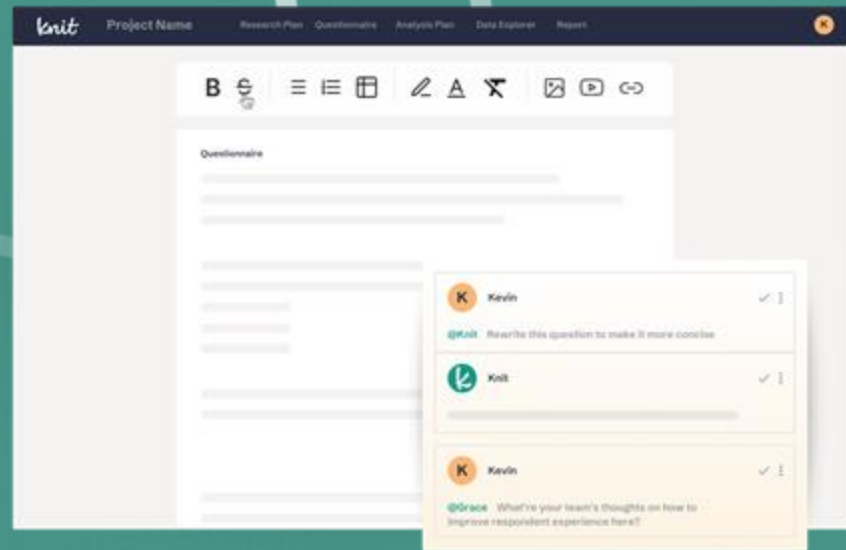

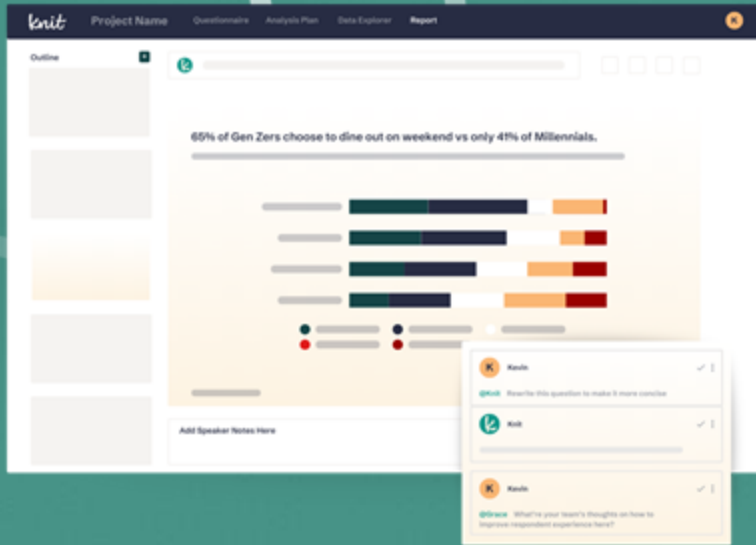

Expanding the Team's Qual (*& Quant*) Capacity
